Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 25, drawn to polyester film.

Group II, claim(s) 2, 12-24 and 26, drawn to laminated polyester film.

Claims 3-11 are generic and will be examined with the elected group.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Where a group of inventions is claimed in an application, the requirement for unity of invention shall be fulfilled only when there is a *special technical relationship* among those inventions involving one or more of the same corresponding technical features which define a contribution over the prior art. The special technical feature of the present invention -- a biaxially oriented polyester film -- does not define a contribution over the prior art, as is revealed by Fujita (EP 0 835 572 A2) on page 2, line 49. Consequently, a lack of unity of invention exists.
5. A telephone call was made to Jennifer M. Hayes on 07/10/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.
6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1774

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
